Enjoy Duck Supper.

On Thursday last between 40 and 50 local Orangemen with wives, sweethearts, sisters, cousins and aunts met to discuss a duck supper, the discussion lasted about an hour and the ducks just out. The Orangemen showed their appreciation to the ladies by leaving them to clear away and wash the dishes, and adjourned to the lodge room opened lodge in the royal arch purple degree and advanced two brothers in good style. If the writer had to go through this degree again he would choose a night when the brothers dined after degree work in spite of the fact that this work must be considerable aid to digestion.

A vote of thanks was passed to the ladies who had excelled themselves in preparing the supper and the closed in due form.

OBITUARY

George Arthur Sisson Jr., only son of G. A. Sisson, of Irma, died Sunday morning after a short illness. He had a mild attack of scarlet fever four weeks ago from which he appeared to recover nicely, but on the sixth inst. he had to take to his bed again, suffering with an attack of nephritis, which was more than his rather frail constitution could stand. George was born in Manila, Philippine Islands, U.S.A., on the 28th April, 1909. His mother and infant brother died in Connecticut in 1914. One sister, Alice May Sisson, aged eight, and his father, survive him and grieve his death.

Death of Little Girl.

Mr. and Mrs. C. C. Riddle are mourning the loss of their infant daughter, three months old, who died on October 6th, after a short illness. The remains of the little one were laid to rest in the Wainwright cemetery on Thursday last. Much sympathy goes out to the bereaved parents in their great loss.

Card of Thanks.

We wish to express our heartfelt thanks to all friends and neighbors for the kindly expressions of sympathy and help during our recent bereavement.

Mr. and Mrs. C. C. Riddle.

Price of Supper 50 cents Adults; Children under 12 years 25 cents. Ladies bring baskets of provisions.

NOTICE

Monday the 18th. of October being Thanksgiving Day all places of business in Irma will be closed.

"Don't forget that October 25th. is the day of voting on the question of inter provincial shipping of alcoholic liquor for beverage purposes. Do not underestimate the meaning of meaning of this vote. We may at times talk lightly of the liquor business and the user of intoxicants but this is a time for serious thought and word and action. We do not talk drunkard nor even the occasional spree. Our community name is not improved by the fact that unseemly language and conduct are allowed and excused by the fact of drunkenness. Let us look at this thing squarely. Facts show that crime decreases business improves, health and happiness come with temperance. Let us then act on our citizenship and vote Yes. Yes on the ballot means, Stop the importation of alcoholic beverages.

J.F.A. READY FOR BIG DRIVE

Greenfield Confident that Alberta Organization will make Record Showing.

Herbert Greenfield, Westlock, Vice-President of U.F.A. and chairman of the U.F.A. organization committee, advises that everything is in readiness for the big drive during the first week in November.

Most of the preliminary work has been done and it is expected that on November 1st and November 2nd upwards of 3000 enthusiastic U.F.A. supporters will be in the field visiting their neighbors and soliciting for memberships in the association.

The organization work in both Manitoba and Saskatchewan has been progressing favorably and reports from "district captains" indicate that the morning of November 1st will see upwards of ten thousand active workers beginning their canvass in all the rural districts in the three provinces.

In this drive an endeavor will be made to have a representative of the farmers association, visit every resident farmer between the City of Winnipeg and the Rocky Mountains. The head of every household will be asked to contribute the sum of \$5.00--no more no less. This amount will pay for a year's membership in the association, a year's subscription to the official organ and leave \$2.00 to be used by the central and district boards for organization purposes.

Associated with Mr. Greenfield on the Alberta Organization Committee are L. M. Goetz of Red Deer and Snow Sears of Nanton. All are members of Board of Directors of the U.F.A. The committee has fixed an objective of 50,000 U.F.A. members for the year 1920 and all are confident that this figure will be reached.

ACCIDENTS

A "social glass of Liquor" has been the cause of many accidents to motor cars, even around Irma. Whisky and gasoline will not mix. Joy Juice in the driver and gasoline in the tank make a destructive combination. It is never recorded against reckless drivers that they "were under the influence of Prohibition." On October 25th the Ford Garage will vote YES. It is our business to keep the cars we sell running. Whisky does not help. Even one glass may put the car out of business. Therefore we say "Cut out the Whisky." And we trust every man and woman who desires to see auto-driving may safe will also vote YES.

Our National Thanksgiving

By proclamation of the Governor-General in Council, Monday, October 18, has been declared to be a day of national thanksgiving in Canada, and all classes of the Canadian people are asked to observe it as such.

There are many good and substantial reasons why the people of this Dominion should observe Thanksgiving Day this year, not merely as a holiday, but in a deep and reverent spirit of thanksgiving.

A kindly Providence has blessed the labors of our husbandmen with a bountiful harvest, not perhaps, one of those bumper crops which come once in a while, but a better crop than has been reaped in the West for some years past. Unlike the past two or three years, there are no extensive areas of the Prairie Provinces which have suffered a crop failure this year. While costs of production have remained high, world conditions are such as to guarantee a good price for Western Canada's grain crop.

Compled with a satisfactory return from our fields, business conditions throughout Canada have continued uniformly good during the year. Our factories have been busy, there has been a marked revival in building operations, work has been plentiful and wages high. In fact the only check to development in Canada this year has been occasioned by inability to secure supplies and materials in sufficient quantities to meet all demands.

Compared with other countries, Canada has been remarkably free from industrial turmoil and strife this year. Labor troubles, culminating in strikes, have been few in number, and those which have taken place have been settled generally in an amicable way, and there has not been those great upheavals which last year caused enormous loss and suffering and at one time seemed to threaten the continuance of responsible constitutional government in this country. Both Labor and Capital have met their responsibilities to each other, and to the country at large, in a manner worthy of praise and deserving of the commendation of all people. Both have benefited and Canada has prospered. Canadians have good reason to be thankful over such a situation.

During 1920, too, Canada has been remarkably free from serious epidemics of disease and no great disasters have occurred, bringing loss and sorrow and death to whole communities. This is indeed cause for thankfulness.

The interest which pervaded all ranks of society following the close of the war still affects our people, but it is to some and more finding its manifestation in desires, plans and movements designed to bring about better conditions of living, of health, a higher standard of education and a more general provision that all people shall enjoy some of the best things in life. There is an evidence an important one with conditions which made for real and suffering to the past and a very real spread of demoralization for the comparative ease and success with which the Dominion has recovered to a peace basis and has absorbed its soldiers and sea workers into civilian life without any serious trouble. These things are cause for the people's thanksgiving.

But if a contemplation of conditions at home is not a sufficient cause for thanksgiving it is only necessary that Canadians should consider for a moment present conditions existing in a large part of Europe and Asia, where a state of war still prevails, where disease and famine stalk through the land, where countless thousands of people are suffering and dying through lack of the necessities of life, and where orphan children in their tens of thousands are lying in the light of cold and hunger for the future. Viewing conditions in Canada today in the light of conditions in so many European countries, Canadians may well rejoice that their lot has been cast in this Dominion. They may well rejoice and thank God that Canada is their home. And their thanksgiving may well take a practical turn in the form of helping, to the extent that they are able, to alleviate the suffering of others.

Shoes 400 Years Old

Age Established By Other Articles Found in Excavation.

Some boots at least 400 years old, with the stitches rotted but the leather in excellent preservation, have been found during excavations in the city of London. They were twelve feet underground in very moist soil and it was this that preserved the leather. So pliable was it that the workmen, until they were stopped, took pieces home to do their own repairs with.

The boots do not differ very much from those of to-day—their age was established chiefly by other articles found alongside them. They have no heels. Except for one child's pair, they are all men's boots.

Vatican Guards Have Been Armed.

Fearing invasion of the Vatican properties by Italian mobs, guards at the Vatican are now armed. The precautionary measures have been taken, it is understood, because of reports that some-uniformed planned to occupy the Lateran Palace, which is the property of the Vatican. The Governor of Rome, official organ of the Vatican, declared that "if the crowd is impregnated with Bolshevism it cannot be expected to refrain from invasion of the Vatican premises."

Greater Production

Big Grain Crops From Cultivation of Indian Lands.

Ontario. The greater production movement inaugurated by Mr. H. H. Arthur, Minister through the Indian Department in 1918 whereby some 20,000 acres of Indian land, throughout the prairie provinces, were cultivated and turned over to grain growing, has more than justified the hopes of the officials who were behind it. The advances made by the Government for carrying out the scheme will be repaid this year, and it is estimated that there will be a surplus of about \$1,000,000, as a result of the splendid crops harvested on all these lands, which, previous to 1918 produced only prairie hay and grass.

Coughs, Colds, Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It is because the healing agent of Catarrhazone is localized into the sore, irritated throat and bronchial tubes that its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhazone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis or Throat Trouble.

The wonderfully soothing vapor of Catarrhazone instantly reaches the inflamed recesses of the lungs, produces a healing curative effect that is impossible with a tablet or liquid, which generally irritate the stomach and fails entirely to help the throat or lungs.

Catarrhazone Just Breathe It

To permanently cure your winter coughs, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrhazone. But beware of the substitute. Large outlet lets two months' supply, \$1.00, small size 50¢, trial size 25¢, at dealers everywhere.

Where Farming Pays

The use of Miller's Worm Powder insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, or more likely to pave the way to dangerous diseases. Fully one-tenth of all the minor ailments of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immatrice, Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Alberta Wool Marketed.

Three hundred thousand pounds of wool have so far been shipped from Alberta to the Co-operative Wool Growers' Association in Toronto for disposal, and there are still two carlots to ship. This is a record, last year the total output was only 260,000 pounds. For some time, there was no market for wool, but it is now quoted at anywhere from 25¢ to 60¢ per pound.

The Association this year has handled about 2,000,000 pounds of wool from all parts of Canada, and the price secured is considered to be a splendid example of co-operation.

Getting A Stand of Alfalfa

Soil Should be Made as Smooth as Possible.

The methods of sowing alfalfa vary with the location and climate. In the west, where it is a simple matter, the land is usually ploughed in early spring, worked down to a good seed bed, and the seed is sown alone in double spring time. A crop is often secured the first year, although the plants are not at their best until the third year.

The amount of seed to the acre varies from four to thirty pounds. The smaller amount is generally grown for the production of seed, as it seeds better not to be thick. It has been calculated that there are 14,400,000 seeds in a bushel of alfalfa seed. Therefore, to sow half a bushel to the acre would put 160 seeds to the square foot. To sow fifteen pounds would put 83 seeds. It is evident that it is more essential to have good seed and good distribution of it than to use a great amount of seed. About twelve to sixteen plants to the square foot are all that will ever stand, and on rich soil, they will not long endure even that much sowing.

Weeds often come up to crowd the young alfalfa. To destroy these weeds the field should be mown as close to the ground as possible. There may come a yellowish rust which attacks the leaves, but it is very uncommon. To destroy this cut close with a mower. When preparing soil for alfalfa, have as smooth as possible so that it all can be securely mown. M. Wilcox, Canmore, Alta.

Dominion Prosperous.

Hon. J. D. Reid, Canadian Minister of Railways and Canals, on landing in England from Canada, gave to interviewers a rosy picture of Canadian conditions. He said that the railway transportation of the Dominion was good. "We have magnificent crops, our industries are running about full time, and we have very few labor troubles," the minister added. "Our revenues are fully up to expectations, we are commencing to play off our war debt and we are a happy and contented people. What more could we desire?"

The name "Bayer" is the thumb-print of genuine Aspirin. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monastereich, Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

List of Offences Perpetrated by the Rebel Irish Forces

Dublin.—Dublin Castle has given out a list of outstanding offences from January 1 to the week ending October 2. It was accompanied by the statement that it was "a significant fact that for all the murders and shootings of policemen, the number of perpetrators apprehended could be counted on the fingers of one hand. In this fact," the statement adds, "might be found the motive for reprisals. The authorities cannot get the men reported, they get off through hunger striking, or demerency of the Government. No one can be found to testify against them, either through intimidation or because of political sympathy." The list of offences follows:

"Court houses destroyed, 62; Royal Irish Constabulary barracks destroyed, 504; Royal Irish Constabulary barracks damaged, 108; raids on mills, 640; raids on coastguard stations and lighthouses, 38; raids for arms reported, 2,075 (many of these raids do not come to the knowledge of the police); police killed, 109; police wounded, 174; soldiers killed, 16; soldiers wounded, 61; civilians killed, 27. These figures do not include the casualties in the Ulster riots in July and September."

Coincided with this announcement the Sinn Fein bulletin publishes the details of attacks on 58 police barracks up to September 30, of which it is stated 12 were captured and two destroyed, while 44 successfully resisted attacks. In the 12 barracks captured, 81 police were made prisoners, disarmed and subsequently released without injury. "Seven men, alleged to have taken part in attacks," the bulletin continues, "were captured, tried by court-martial and sentenced to long terms of penal servitude."

The bulletin adds that in addition, two civilians were murdered as a result of raids in the town of Ferm. It asserts that the object of attacks on barracks was to secure arms for Ireland to defend herself.

Must Release British Prisoners.
Montreal.—A London cable to the Montreal Star says: "It was stated officially that the Russian Government has replied to Lord Curzon's ultimatum demanding immediate release of all British prisoners. Curzon's note said there could be no agreement on resumption of trade until Russia consented to release the prisoners."

"The tone of the Russian reply was said to have been favorable."

Regina, Sask.—Officials of the department of education stated that Saskatchewan was short more than 500 school teachers and that this number might be increased to 1,000 before the end of the year.

7 Jewels

MEET Ingersoll Reliance—the seven jewelled star time-reporter of the Ingersoll Watches. Smart as they make 'em, aristocratic in appearance, slim, suave and distinguished—but a regular fellow.

And he sure keeps regular time! Reliance has been trained that way. Before he leaves the Ingersoll factory he is tested to tell time correctly in six different positions—two days in each.

But you don't know the half of it, yet. Reliance is given 127 other inspections to see that his seven jewelled, bridge-type works function perfectly.

Those works contain the best features of 362 different watches which were studied in constructing Reliance—yet Reliance has 29 less parts than the average watch. Simplicity, accuracy, sturdiness and beauty make the Reliance a watch anyone can be proud to carry.

Germans Ordered To Release Ships

Munitions For Poland Are Held in Kiel Canal.

Paris.—The council of ambassadors despatched a note to Germany demanding the immediate release of three ships loaded with munitions for Poland, which are being held in the Kiel Canal by the German authorities. The note specifically mentions the Danish ship *Dronin*, but there are two other ships which also are being held.

Germany has taken the position that she is neutral in the Russo-Polish war and that therefore she could not permit the passage of the ships, which are destined for Danzig.

Inaugurate Campaign For Canadian Ports

Shipping Interests Bid For Direct Trade With England.

London.—Canadian shipping interests are making a determined effort to capture British trade for Canada by means of Canadian ownership of ships.

Captain Smith, of the Canadian Merchant Marine Co., appeals to British merchants to deal direct with Canada through Canadian agents and to forget the idea that the Canadian market is best approached through New York.

"A legitimate aim," he said, "is being made to provide the necessary ships for Canada's export and import trade and open new avenues of direct trade for Canada through Canadian ports. Too much of Canada's trade is carried through the medium of the United States which has an adverse influence here in currency."

Toronto Business Man Speaks Highly of "Marlatt's Specific"

Will Gladly Recommend to Any Gall Stone Sufferer.

Toronto, Ont.

J. W. Marlatt & Co., Gentlemen—I was in poor health for a long time, and I could not find relief from my trouble until a friend of mine recommended me to try your "MARLATT'S SPECIFIC" for Gall Stones and Appendicitis, which I decided to do. I sent \$3.00 and got one treatment of your medicine, and after taking this treatment I was surprised to pass a number of Gall Stones without any pain or ache. I have not enjoyed as good HEALTH in ten years as I have at the present time.

I am so pleased at what your medicine has done for me that I would heartily recommend it to anyone suffering from Gall Stones. "Any further testimonials which I can give to any sufferer will be cheerfully given."

"Marlatt's Specific" is for sale by nearly every druggist in Canada but if your local druggist happens not to have it, write direct to J. W. Marlatt & Co., Toronto, Ontario.

Miners Must Get Busy

Alberta Coal Operators Will Re-open Negotiations When Men Resume Work.

Calgary, Alta.—At a joint meeting of the Western Canada Coal Operators' Association and officials of the U.M.W. of America, the former stated that the question of opening the existing contract could not be entertained until all the miners were back at work. The request for the re-opening of negotiations, with a view to increasing the scale of the day wage workers, was contingent on a large number of the men continuing at work, said the mine operators.

The strike of miners in district 18 has been extended by the walkout of the men at Michael and Fernie, where about 100 men are reported to have left work. There is no addition to the strikers' ranks in the Drumheller field.

Grain Storage Increased.

Ottawa.—According to returns received at the Dominion Bureau of Statistics for the week ending October 2, 1920, the quantity of grain in store at the different public elevators throughout Canada has increased by 3,401,258 bushels in all grades of grain as compared with the previous week. Increases are shown in wheat of 2,681,145 bushels, oats 562,012 bushels, barley 108,282 bushels, Rye 18,449 bushels, and rye 31,370 bushels.

A HEAVY LOAD IS BEING CARRIED BY THE FARMERS

AGRICULTURE UNABLE TO COMPETE UNDER CONDITIONS.

Conflicting Evidence Is Given Before Tariff Commission at Edmonton.

Edmonton, Alta.—Protection as enforced by the present tariff is responsible for the prosperity of Edmonton's industries and is necessary to their expansion, while at the same time it is proving a burden to the farmers and driving them off the land, according to conflicting evidence given before the session of the Tariff Commission here.

"The manufacturers of this city endorsed the stand taken in all parts of the Dominion by manufacturers who urge the retention of the protective tariff, while the representatives of the farmers urge that it be dropped, to give them a chance to prosper."

Reduction of the tariff to give the farmers opportunities to buy in the open market, was requested by Hon. Duncan Marshall, provincial minister of agriculture, who was the chief witness before the Tariff Commission at the afternoon session.

"Alberta farmers have to compete in the open market for the sale of their goods, all that they ask is that they have the privilege of buying implements in the same manner, which will enable them to prosper," he said. "The increase of exports will bring revenue to the Dominion treasury and the best means of securing this increase will be to remove the tariff on farm implements," he continued.

He pointed out that the farmer cannot possibly benefit by the present tariff. He has to compete in the open market for the sale of his crops, as an example, Mr. Marshall pointed out that this year no British buyers were in the market and that consequently the price of wheat has undergone fluctuations which will mean money loss to every farmer.

He asked that the Dominion Government demand from the British Government permission to allow Canadian livestock growers the entry of their cattle.

Mr. Marshall concluded by asking that the tariff be put on a purely revenue basis, and the element of protection deducted.

Harry Bell, from Nainayoga, a veteran farmer, gave detailed figures of his expenditures and estimated cost of the cultivation of a five hundred acre farm. His balance, he said, was \$3,685, without any deductions for his and a grown-up son's labor. Farmers, he told the commissioners, were entirely unprepared for the drop in wheat prices. He thought that the tariff on farm implements could be fairly cut in half, and so relieve the farmers of some of the burden.

Rice Shoppert, for 15 years an official of the United Farmers of Alberta Association, charged that the Canadian manufacturers took the benefit of the tariff to raise prices of Canadian manufacture.

"Our greatest need is colonization of productive areas, but we must have a corresponding development of urban communities, and these require for their proper growth, a suitable measure of industrial development," said C. G. Robertson before the Tariff Commission here. He represented Edmonton manufacturers who asked for continuance of the tariff without which, they claim, industries would be unable to cope with the U.S. competition. The statement contained a general survey of industrial conditions in the province.

Will Ask Germans to Explain.

Paris.—The inter-allied commission in Berlin will be requested to investigate the circumstances of the burning of the Hamburg of the German steamer *Bismarck*, which was building at a shipyard in the Port of Hamburg, and was to have been delivered to the Allies under the terms of the peace treaty. The French government will also ask Germany for explanations regarding the burning of the *Bismarck*.

Steamer Lies in Deep Water.

Victoria, B.C.—The condition of the Grand Trunk steamer Prince Rupert, which ran ashore in Swanton Bay during a fog last week while on her way north from Vancouver with 200 passengers, lies in 60 feet of water at low tide. Divers have gone north and the work of salvage will commence immediately. The steamer is lying on her beam end.

DECLARES THAT WHEAT DROP DUE TO OPEN MARKET

PRESIDENT WOOD DEPLORES ABOLITION OF WHEAT BOARD.

Sir George Foster Says Decline Not Result of Fact That Board Is Not Handling Wheat.

Calgary, Alta.—H. W. Wood, president of the United Farmers of Alberta, stated that he agreed with the remarks of Hon. George Langley, vice-president of the Saskatchewan Co-operative Elevator Company, that the present condition of the wheat market was due to the abolition of the Canadian Wheat Board.

"I would like, however, to withhold my criticism of the Government until I see what action is taken to meet the present situation," he remarked.

Mr. Wood stated there was no question but that the wheat would have been handled very much better through the board than on the open market. Wheat, he said, had declined one dollar a bushel in the cash price since the selling was taken out of the hands of the board. The price to the miller was \$3.15 and the export price was not lower.

Ottawa.—Commenting on a news dispatch from Calgary in which H. W. Wood, president of the United Farmers of Alberta, was quoted as saying that the Canadian wheat board had been handled very much better through the Canadian Wheat Board than in the open market, and that the price had declined a dollar a bushel since the board had ceased to handle it, Sir George Foster spoke as follows:

"The fact that the price of wheat in Canada has declined one dollar is no proof that it would have been dropped had its sale been under the control of the board. It has declined equally or more in the States. This decline is not due to the fact that a board is not handling the wheat, but is a result of the supply of wheat in Canada at present exceeding demand. It is not sound reasoning to say that it has declined because the wheat board is not handling it."

Alberta Editors Meet.

Calgary, Alta.—Alberta daily and weekly editors in session here decided to retain their organization as the Alberta Division of the Canadian Press Association instead of splitting up into weekly and daily sections. A scheme was proposed similar to that tried in Saskatchewan for the convention to meet at Alberta University for a three-day course in journalism with addresses by prominent professors.

Safety First Week.

Winnipeg.—The conference of provincial insurance superintendents proposed to inaugurate a "Safety First" week during which fire prevention, life protection, and similar public safeguards would be advocated all over the Dominion. Discussion of a model fire policy act took place, the meeting having before them a copy of one drafted by the commissioners on uniform legislation. The adoption of this act was suggested for every province. Automobile insurance also occupied the attention of the convention.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is that nervous women are not only nervous, but they are also irritable and nervous, have hot flashes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. L. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flashes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am never without them in the house and recommend them to all who suffer from nerve troubles."

Guaranteed Minimum Price for Wheat Is Now Imperative

Find Documents Dealing With Sinn Fein Riots

Prisoner Possessed of Minutes of the Irish League of Self Determination.

Montreal.—The Montreal Star publishes the following: "The police believe they hold, in the arrest of Michael Symington, the key to the Sinn Fein disorders reported in the Dublin district after the accession of Lord Mayor Macswiney had been appointed. Symington, held without bail, is charged at present with unlawful possession of four rifles."

The rifles, the police claim to have been placed in secret places while Symington was a clerk in the Department of Public Works. The magistrate's hearing revealed not only this, but that the prisoner also possessed minutes of the Irish League of Self Determination. In a packing case where this was discovered, the police came upon the blue prints of the Irish officers, and the government buildings surrounding it. In his living room were four army rifles, together with a mass of damaging documents all wrapped in a bag of the Irish republic. Documents are now searching for vital documents which they think are missing, probably removed by Sinn Fein agents before the police arrived at the suspect's home.

**Britain Will Sell
Railway Material**

Ordered By Them For Russian Government Years Ago.

Vancouver, B.C.—Railway material amounting to 30,000 tons ordered by the Russian Government and which has been lying for years in the C.P.R. yards at Capitan awaiting shipment from Vancouver, will be sold to the highest bidder by the British Government, on whose credit the supplies were bought, according to J. E. Francis, comptroller of the disposal board, British war munitions, who has arrived in Vancouver to survey and check up the material.

The Liquor Referendum

Important Question to be Settled by Vote on Oct. 25.

A very important question is to be settled in this Province by vote of the people in the referendum on October 25th. Every good citizen will desire that the vote be an intelligent one, and will also long that it will be decisive, so that the question will not continue to agitate the public mind. The object of this article is to define the issue so that electors, whether "wet" or "dry," will know precisely what they are to vote upon.

It is the contention of the temperance people that the partial prohibition which we have had has been so beneficial that complete prohibition is desirable. They argue further that the province ought not to harbor export liquor warehouses to sell into their provinces what is prohibited within their own, and the logic of the situation seems to be with them.

In support of their contention that prohibition has been beneficial, they point to the dwindling number of convicts and drunkards in all the provinces of Canada since its introduction. In the four Western Provinces between 1913 and 1918, according to the sessional papers, of the Parliament of Canada, this reduction was 88 per cent. The returns for 1919 are not yet available. Their opponents on the other hand point to the deceitful evasions of the law by otherwise respectable citizens and to back alley bootlegging as fruits of the prohibition measure, and assert that this is more injurious than the open sale of liquor. The answer of the prohibitionist is that the cure of the evil is not in taking away the illegality of the sale, but in removing the facilities for its practice.

In any case the result of the referendum, if carried, will be to place the Province in control of her own liquor conditions, which she may then make as dry or as wet as she pleases, instead of leaving the matter subject to dual control as at present.

Canada's navy is to be commissioned November 1, and leave England for Canada soon after.

W. N. U. 1337.

Ottawa.—The renewed movement in the west for the re-creation of the Wheat Board is reported to have an adherent in the Minister of Finance who is out there with the Tariff Committee, and has been interviewed. It is understood that Sir Henry Drayton has communicated with Ottawa in terms rather favorable to the control idea but that there is not much prospect of it being reverted to.

While wheat prices are down, the Minister of Trade and Commerce says this is due to the law of supply and demand and not because the Wheat Board went out of existence. Unless the influence exerted is peculiarly strong and conditions otherwise justify it, the outlook at this juncture is not favorable to the Wheat Board being re-created. In the discussion on the subject in the house last spring a point emphasized was that whatever system was adopted it should last a year. To this the Government agreed.

Calgary, Alta.—"The setting of a guaranteed minimum price for wheat by the Government is imperative in the interests, not only of agriculture, but of the financial stability of Canada as a whole." This was the emphatic statement, in conversation with a Canadian Press representative of John I. McFarland, president and managing director of the Alberta Pacific Grain Company, Limited. Mr. McFarland insisted on the necessity of immediate action.

Famous Generals Meet

Currie and Pershing Attend Reunion of McGill Graduates.

New York.—Commanders-in-Chief of the expeditionary forces of Canada and the United States had a reunion at the dinner of the New York Graduates' Society of McGill University at the Hotel Commodore, when Gen. Sir Arthur Currie, president of McGill, and former commander-in-chief of the Canadian forces in France, sat side by side with General J. E. Pershing, commander of the United States troops during the war. Both were on the list of speakers.

Sir Charles Gordon, vice-president of the Bank of Montreal, and a governor of McGill University, also spoke.

W. W. Colpitts, president of the society, acted as toastmaster, and about 200 guests, men and women, were in attendance. Gen. Currie was greeted with prolonged applause when he was introduced as the first speaker. The dinner rose in his honor. He spoke of the value of university education.

The New Twenty-year Capital Return Policy

(Issued by The Canada Life)

A Young Man and His Future

He takes his first step in business affairs, is examined by the doctor, and creates an estate of \$5,000.

He improves the shining hour and impresses upon an important person, that he is in possession of an "estate."

His tendency to save and invest is noted by his employers.

He finds his savings of great assistance in buying a home.

And as time goes on he is enabled to enjoy many of the good things of life.

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumulated profits, after giving you insurance protection for twenty years.

Easily Understood:

1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,—for \$5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest for 20 years.

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

---OR---

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

---OR---

this Special Cash Guarantee may be applied to increase the amount of your policy to more than \$7500.

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

"All entered in good faith and without prejudice"

Lost—our perfectly good Grand Trunk train last heard of when leaving Pacific Coast on Tuesday October 5th. No trace can be found of this train up-to-date and any one returning or giving information as to its whereabouts will be sufficiently rewarded for their trouble. All reports should be made in the persons handwriting and should contain all particulars as to the time and place seen and in what condition the train was in. It might be possible that some one is harboring this train for ransom and in such case an additional reward is offered for the capture of those complicated in the matter so that they may be severely dealt with and thus do away with future trouble. Make report to Roy Whyte, Chas. Wilberham or Joe Blair at Irma Depot.

Since writing the above, the said train turned up at Irma on or about 1 p.m.—in good condition—the reason for its delay being lack of "Service," since our good old government took things over. More than ever we say—it's a good country the C.P.R.—and some have expressed the fact that they may move South a little.—Sam Hughes hasn't anything to do with the G.T.P. has he?

The citizens of Irma missed a very fine musical entertainment, last Sunday evening by not being at the depot. The Rye vocal orchestra being the means of providing the station staff and a few others, who were lucky enough to be around. Charlie and Joe played the bass accompaniment—and at one time things sounded like a barnyard—or a kennel of dogs—we are wondering if it was the "Lively Stable Blues," they were trying to give us. It sounded like.—(the blues anyway).

Tax Sale

Sale of lands in the Municipal District of Battle River No. 423 for arrears of taxes.

Notice is hereby given that certain lands in the Municipal District of Battle River No. 423 will be offered for sale for arrears of taxes and costs, in the village of Irma, on the 15th day of November, A.D. 1920, at the hour of 2 o'clock p.m. A full list of said lands may be seen in the Irma Times, in issues dated Sept. 17th, 1920 and Sept. 24th, 1920.

Dated at Irma, the 27th. day of Sept. 1920.

Seed Distribution.

The annual free distribution of samples of seed grain will be conducted as usual at the Central Experimental Farm, Ottawa, by the Dominion Cerealists.

The following kinds of seed grain will be sent out this season:—
Spring Wheat (in about 5 lb. samples); White Oats (about 4 lb.); Barley (about 5 lb.); Field Peas (about 5 lb.); Field Beans (about 2 lb.); Flax (about 2 lb.).

Only one sample can be sent to each applicant.

Applications must be on printed forms which may be obtained by writing to the Dominion Cerealists, Experimental Farm, Ottawa, at any time after Sept. 1st.

As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. Those who applied too late last season are particularly requested to send in their names at once so that application forms may be forwarded to them. No application forms will be furnished after Feb. 1st, 1921.

Organized Farmers
Arrange Joint Drive

Week of November 1st fixed as date for Campaign in three Western Provinces

According to reports received at this office, the week beginning November 1st will witness the greatest organization campaign ever conducted by the farmers' associations of the West. The campaign is to be carried on at the same time in each one of the three western provinces under the auspices of the U. F. A., the Sask. Grain Growers' Association and the United Farmers of Manitoba. It is expected that there will be upwards of ten thousand canvassers working under approximately six hundred district captains and forty constituency organizers. These canvassers will personally visit the resident farmers in their respective districts and solicit, from each one, money with which to finance the organization.

Plan of Organization

There is, in each of the three provinces, a Central or Provincial Committee. The plans for this joint drive were arranged through a conference of the "Central Committees" and with the consent of the various constituency boards. The plans are uniform for the three provinces.

Messrs. Herbert, Greenfield, Westlock, L. M. Goetz, Red Deer and Snow Sears, Nanton, constitute the Central Committee for Alberta. On the recommendation of this committee each of the twelve constituency boards has appointed an organizer who will have full responsibility for organizing the drive for the district.

The constituency organizer—working with the members of the constituency boards—is dividing all of the territory in the district into units of approximately nine townships each and over each unit of nine townships is placing a "District Captain." The district captains are endeavoring to enlist the services of at least one man or woman in each one-half township under their respective jurisdictions—who will agree to personally visit every resident in the district on November 1st or November 2nd and solicit from each one \$6.00, this \$6.00 will pay for a membership in the Association—a years subscription to the official organ—and membership dues in the political organization.

A similar membership drive was made in Saskatchewan last October—and in Manitoba in March 1920. In the Saskatchewan drive upward of 2000 canvassers were enlisted and the sum of \$82,000.00 was collected. In Manitoba about 1000 canvassers were in the field and over \$50,000.00 was secured.

The drive to be held in November has been much more thoroughly organized and it is confidently expected that upwards of 10,000 active canvassers will be enlisted for campaign.

He stretched a claw like finger to ward the portrait.

"You know white girl good. You no teach Bushwhacker."

Hallibut stood staring upon the old Indian.

"Listen," he said, "I'm down beside the old man, you must understand that the portrait you see on the wall is not of a Bushwhacker but of a man who was a friend of mine. That's the likeness of a sister I had, and she was very good. It was painted in England, a land where the great waters flow."

"No, no," cried the Indian. "No, no, you are wrong. I can see and understand. The man need not know white girl. No, no, you are wrong. Hallibut, you are wrong. You are wrong. Then he sank into a chair and ran his finger through his gray hair.

"I'm hanged if I understand what he means," he muttered. "The man no need vessel," went on the Indian. "Bushwhacker no want him. Scare duck plenty had. No, no, come tell big man no send."

"Ah," exclaimed Hallibut, "I'm guessing to see light. They sent you over to tell me I mustn't send my schooner up the creek, eh?"

"No one could send me here," said Noah. "Bushwhacker shoot when big man come take timber. Big man no come—no send agent again."

The Colonel sat and stared up and down the room.

"Well, of all things!" he exclaimed. "What do you think of all this? Phoebe, girl—trying to tell the picture, what do you think of those Indian Bushwhackers?"

The aged Indian had risen and was wrapping his blanket about him.

"Noah," said Hallibut, "the Bushwhackers haven't any particular use for me. I understand. It's pretty near war between us. But I'm going to send my vessel up that creek just the same. I'm willing to promise you that I won't let the Bushwhackers any harm until they try to do me harm. They threaten to burn my schooner, and maybe they will—well, er, I'll tell you what I am going to do. I'm going to send that schooner around the Point and into the bay soon. I want you to meet her at the harbor, and as for watching her, I'll believe you are honest, and I will pay you well. What do you say, Noah?"

Noah nodded once more to the portrait.

"You do much for her?" he asked simply.

The big man started. Then he smiled and said gently:

"Old man, God only knows how much I would do if I could."

"Noah will meet big man vessel," said the Indian, holding out his hand. After the strange messenger had eaten and gone, Hallibut paced to and fro across the wide room, pondering deeply upon what he had learned. He stopped at last before the portrait on the wall.

"I wonder why the poor old chap should think he knows you, Phoebe?" he said, addressing the girl in the frame.

"It was a custom of his to speak all his inner thoughts to the picture. One may lose a son, or a daughter, but he can treasure a dead flower because its perfume clings to it and never quite dies."

"I like the old man because he thinks he knows you," he murmured, just because he thinks he knows you, Phoebe."

His head dropped and he seemed to ward the door.

"I don't know who I should not teach those Bushwhackers a lesson!" he ejaculated.

He turned and let his roving eyes rest on the painting, and as he gazed his face softened.

"The big man seemed to be pleading with him. 'Maybe there really is a girl who looks like you, Phoebe,' he said now. 'A little girl of the Wild, that looks like you.'"

And the face smiled on him as he passed on through the doorway.

CHAPTER XIII. On the Creek Path.

It was early twilight when the old Indian once again reached Bushwhacker's Place. All day he had been on the trail, and now, as he lay on a comfortable bed, he was glad to find his belt when hunger gnawed at his stomach.

It was a long journey from Round Bay Point to St. Lawrence, and over rough ground—a very long journey for a man of Noah's age to attend to. But he was an Indian, and his spirit did not grow tired. The sun was very low, and his spirit was young like the spirit of the great, shadowed woodland. Age counted for nothing when one's duty is strong within his environment.

For the first time since he was a star that had blossomed from some strange, unknown seed, and strayed into the green uplands. He had decided to grow from a slender girl into a graceful creature with beauty that nothing of the woodland could match. All day he had held all the lights that ever shone on lake or wood, and life that bubbled and laughed and died.

For her and her pretensions Noah had undertaken the trying mission of visiting the rich man Hallibut, and advising him to leave the men of the hardwoods alone.

He had taken the portrait on the lonely man's walls for that of Phoebe. It was no strange. The old man's eyes were growing dim, and they sometimes played pranks on him. But the incident was sufficient to lead his loyalty to the man who threatened the Bushwhackers.

Noah was willing to act as watchman aboard the schooner. He had lost all the impetuosity of youth. He was old and wise, and he would watch and wait—and act if necessary, when the time came.

Gloss, coming up from the spring with a pail of running milk, roared, strided and ready for "setting," caught sight of her old friend and gave a call like the trill of a marsh lark. The Indian, without speaking, overtook her and reached for the pail, which he carried to the house and set on the block outside the cellar door.

Big McTavish, was chopping logs in the evening fire, and careful sight of Noah as he came around the corner of the house.

"Well, well, Chief," he cried, "thought maybe you was on the war path. Ain't seen you here for days. Come along in and get some supper."

"Good," grunted the old man, and followed McTavish into the kitchen. Gloss laid the cloth for the visitor's supper. Her eyes brightened and she turned his wrinkled face toward her.

"Noah," she said, "you mustn't stay away from Gloss so long again. It's long lonely without you here."

Noah's eyes flashed at the words, and he spoke, using only the meekest words of the English tongue, as he gave his custom.

"Wild-bird, no lonely where wild world be. Gloss speak to make in-jun heart glad now. Injun speak to make wild-bird sing. Big water," pointing southward, "big forest," sweeping his arm about, "all play same. No change. Good, much good. Noah, he know."

Granny McTavish, coming from the bedroom, caught the words of the Indian.

"Rec't, Noah," she smiled, "there'll be no change feel. Good walls, and may be na' well it be long."

"Glad you tell, Roy," said Noah, "tell him Noah say it."

The old lady held up her hands.

"There's na' tellin' him at all when ever he asked. He's muckle disturbed and he'll na' listen to reason. He's out there now truddin' the wet woods, but he'll not get comfort there, now, he mean," said Noah, "I'll tell him. I've told him for 't'wice enow. God forgive him for 't'wice enow. He is na' a' gill but a' heart, enow, a' gill but a' heart."

"Tush, Granny," chuckled Big Mc-

Fixing Up the Hen House

Now is the Time to Clean and Make Repairs.

The time has come to make needed repairs on the hen house. There are cold winds and rains in November, sudden drops in temperature in December. Any work now that will save illness later should be done. Stop the leaks in the roofs, batten the cracks in the ends and back of the hen house. Curtains may need replacing, glass set, doors closed to fit. Early autumn cleaning is always in order. The pullets should not be put into permanent quarters till they are swept, whitewashed, and the old litter replaced. Never have matting pullets needed better housing than right now. They should be got in from the roosting coop before they begin to lay. A month of housing and yarding is none too long if you want laid and winter layers. Get them into the clean houses with a yard that is carrying some fall green crop, get them on an egg ration, and see them quickly mature and get at their winter's business.

August Fish Catch.

The catch of fish of all kinds for the month of August on both the Atlantic and Pacific coasts, amounted to 1,005,884 cwts., as compared with 1,145,290 cwts. for the same month last year. The total value of the August catch was \$8,047,187 against \$8,066,143 last year. On the Pacific coast there was an increase of 125,983 cwts. of the salmon catch, all three districts contributing to the increase. The value of the salmon catch, however, was very little better than last year. The halibut catch amounted to 28,899 cwts. against 31,116 cwts. for August last year.

The League of Nations

Good Results Attend the Jamboree Held by the Boy Scouts.

For jaded nerves the spectacle of so much youth and enthusiasm ought to be a tonic at least equal to any one that the seas can produce, and no one can stomach the "Jamboree" of the League. There are plans on foot for making this meeting an annual affair, at least for strengthening the opportunities of inter-communication; and it is a scheme in the success of which all nations ought to be vitally interested. Our generation is passing; our powers for good or ill in world history are fading; it is the Boy Scouts of today who are the men of tomorrow. The Westminster Gazette, July 30th.

For Married Men Only

When your razor is dull as a hoe, ask your wife if she wasn't passing her razor. Get her Pilsbury's Corn Flour. It's the only painless and safe cure. All dealers sell "Pilsbury's" at 25c per bottle.

An Exhibition Ship.

The Ladys, determined to catch export trade, are fitting out a ship which will exhibit in foreign ports, specimens of their manufactures and their natural products. This ship will ultimately sail around the world, and buyers will be invited to stop aboard. The Hibernia King is leading the organization his own yacht, the Tritonia, for the purpose, and her first voyage is to be along the Mediterranean, calling at Marseilles and Tangers.

Four More Trading Posts.

The establishment of four trading posts on the Hudson Bay has been successfully accomplished by a company other than the one holding the name of that territory.

KAISERGRUBER-BELGIAN

Career of Fighter and Interpreter with Canadian Forces

After spending 25 months in France, 22 of them in the front line, Pte. H. Kaisergruber, a Belgian-born fighter, returned to the Pacific Coast of Canada. He said ever since he had joined up to go overseas and fight he had had to make excuses for his name, but after convincing his superior officers and comrades that he was actively fighting on the right side, they accepted him and dubbed him "The Kaiser's Grave-Digger," the latter part of his name having that meaning in German. Kaisergruber left for overseas with the Princess Pats and fought with the original 16th Battalion, to which he was transferred when he reached England. After serving for nearly two years in the front line and escaping without a wound, he became physically unfit for further active fighting and was made a wireless interpreter, speaking German, French, Flemish, Belgian and English. In 1914 he knew no English.

Pte. Kaisergruber's father was a doctor in Ostend. He had a brother a major in the Belgian army in the Congo and another a captain with the 8th Belgian Infantry. He met the latter in Flanders while fighting. A sister resides in Paris, and while in the French capital he spent some time with her. The Belgian fighter's experiences cover the most interesting stages of the war's development, and his stamina alone enabled him to last over two years. He was gassed slightly once and twice suffered from shell shock, and during his entire service had but seven days' leave.

HAPPY RETURNING HEROES

Father Saw Son for First Time—Canadian Confidence

The following is a typical extract from an account of the return of a party of Canadian soldiers. The men seemed taken by storm, so enthusiastic was the welcome given them, and tears of happiness sprang to the eyes of many a hardened fighter. Little children clung to their fathers so long away from them. One Vancouver hero's exploits, which commenced at Ypres and included most of the important campaigns from there to Vimy Ridge, blushed like a school girl when a tiny son whom he had never before seen was placed in his arms. While happy wives, mothers and sisters seemed unable to believe that their loved ones were again with them. Every man radiated confidence, and every man held up his head with pride. The scars of battle were distinguishing badges of merit and not one soldier regretted the sacrifices he had made.

Explorer's Strange End

Timothy McCarthy, one of the Weddell Sea party who accompanied Sir Ernest Shackleton on his 750-mile journey in the small boat from Elephant Island to South Georgia, was later killed while acting as gunner in a ship that was torpedoed.

An attorney was cross-examining a witness. "You say you left London on the sixteenth," queried the lawyer. "Yes, sir," replied the witness. "And returned on the twenty-eighth?" "What were you doing in the interim?" "I never was in such a place!" he replied indignantly.

Poor Fellow!

First Laborer: "Yer know, it's hard luck on Bill being short-sighted." Second Laborer: "Why? He doesn't need good eyes for his job." First Laborer: "No, but he can't see when the foreman's coming, so he has to keep on working all the time."

Must Observe Rules

Old Lady: "Well, now that I have paid a ticket for the dog, I suppose he's entitled to a seat in the street car?"

Conductor: "Yes, mum; but he must conform to the rules, and keep his feet off the cushions."

Couldn't Be Done
The Officer (looking down at Tommie in trench): "You're too deep." The Voice (with painful recollections of "Form fours, two deep!"): "Well, 'ang it all, we can't form fours here, can we?"—Sketch.

Doubtful
Spendly: "Well, if my money should go, dearest, you'd still have me!" Mrs. Spendly: "Don't you be too sure about that!"

"I trust we shall make you feel quite at home," remarked the hotel manager.
"Don't you try it," expostulated the visitor. "I want to have a good time!"

Judging work as in some classes as many as 40 entries were made and spotting the winner was no light task.

Food and horse races occupied the crowd while judging was going on.

The day's proceedings concluded well. A concert was given under the direction of Mr. Upton, who was successful in getting a number of excellent artists, among whom were: Mrs. Cox, Violinist; Mrs. Allen and Mrs. Upton, pianists; Mrs. Wagners, Miss Lind, Mrs. Upton, Miss Scott, N. Kerns, Mr. Ainslie and Mr. Fromant.

A dance carried the proceedings well into the night, the Viking orchestra being voted a great success.
